

# Professional Development from Hatch

Request a quote

Ignite the spark in your teachers with live on-site and online professional development sessions!

At Hatch, partnership is our top priority in meeting your professional development needs. We are committed to enhancing the skills and knowledge of your early childhood educators, regardless of experience or learning style.

- Increase the knowledge of your teachers
- Boost teacher’s confidence in the technology
- Assist teachers with meeting documentation goals
- Make lesson planning easier for teachers

## Ignite™

### Foundations:

In this training session, teachers will learn the basic skills they need to begin implementing Ignite in their classrooms. Teachers will learn how this ongoing assessment solution is based on 3 repeating steps: Play, Review and Instruct. **This training is ideal for new teachers or as a refresher.**

### Advanced:

In this session our trainers will work with teachers to take an in-depth look at the Hatch Insights reports and how they can be used to differentiate and drive instruction. **This training is recommended for teachers who have completed the Foundations Training.**

### Administrator:

This training session will cover classroom best practices and outline the administrative roles and responsibilities for supporting teachers with the implementation of Ignite. Trainers will demonstrate how administrators can utilize Hatch Insights to guide instruction in the classroom, provide development opportunities and understand technology utilization. **This training is for any administrator.**

## teachsmart®

### Foundations:

In this hands-on session, teachers will learn the basic skills they need to begin implementing TeachSmart or CoreFocus in their classrooms. **This training is ideal for new teachers or as a refresher.**

### Advanced:

Teachers in this session will master the process of collecting and saving children’s work and using this work to meet documentation goals. **This training is recommended for teachers who have completed the Foundations Training**

## we playsmart®

In this hands-on session, teachers will learn the basic skills they need to begin implementing WePlaySmart in their classrooms. **This training is ideal for new teachers or as a refresher.**

## Professional Development for Distance Learning

### Teachers face many questions and challenges as they plan for the fall.

Will they be in their classroom? Will they be entirely remote?  
Or will they be using a hybrid format, providing learning  
opportunities both in and outside the classroom?

How will they connect with the children they serve and build  
relationships? Will parents understand their role in their child's  
learning and development? What communication methods will  
be most effective?

How can we use data to inform instruction and help each child move  
toward their next developmental milestone? And how will we provide  
teachers with relevant professional development opportunities?

**To help programs answer these questions, Hatch has developed a set of new On-Demand, Distance Learning Courses covering:**

- 1. Connected Learning: In-Classroom + Remote Learning Experiences**
- 2. Engaging with Families Virtually Using Video Apps**
- 3. Bridging the Equity Divide**
- 4. Flexible Solutions for Continuous Learning**

These courses help teachers, coaches, and administrators gain understanding of how to better support the children and families they serve, regardless of the where learning is taking place. These courses tackle the challenges teachers are facing today while empowering programs to think beyond product training to true professional development. Hatch is committed to providing teachers with trusted resources that help answer the question: *What will learning look like in the coming school year?*

### **This package includes:**

- 4 hours of content that promotes big thinking
- Support materials
- Ability to participate individually or as a group
- Unlimited access to on-demand courses for 3 months

**For a limited time, all 4 courses can be purchased for ~~\$650~~ \$550, through July 1<sup>st</sup>.**

# Back-to-School Planning: Supporting Families

Heading into the new school year, your program is likely weighing options for distance learning and deciding how to keep early learners on track for kindergarten. While the children are the main focus, don't forget about their families!

Families play a critical role in how preschoolers learn in the best of times, and they have an even more critical role now. This is why Hatch Early Learning has developed a new on-demand learning course to engage families.

## The Family Engagement Webinar Series

Our Family Engagement webinar series is a convenient way programs can support parents when their children need to learn remotely.

The series is made up of short, non-product-based webinars designed to provide families with best practices for learning at home.

### Created with busy parents in mind:

- Best practices for parents with children learning remotely
- On-demand, pre-recorded segments
- Each webinar is under 20 minutes
- Total video view time is 90 minutes
- Unlimited access for 6 months

Programs can allow families to access the entire webinar series at once, or videos can be shared individually to coincide with classroom goals.

**\$299/classroom**

**FAMILY WEBINAR TOPICS**

- Healthy at Home
- Importance of Active Play
- Managing Big Emotions
- Distance Learning Home Environments
- How to prepare for Kindergarten Transition
- STEM at Home
- Outdoor Play
- Strategies for teaching my child at home

Topics

### Also available for teachers and administrators: Professional Development for Distance Learning
